Campaign Launch Checklist

Mechanical Enterprise HVAC Marketing

Use this checklist every time you launch a new marketing campaign

---

Step 1: Choose Campaign Template

From Marketing Dashboard → Campaigns Tab

- [ ] Review all available campaign templates
- [ ] Select template that matches your goal:
  - Emergency repair campaigns (immediate leads)
  - Heat pump/rebate campaigns (education + conversion)
  - Maintenance subscriptions (recurring revenue)
  - Partnership recruitment (network expansion)
- [ ] Note the target audience and platform recommendations

Step 2: Copy Ad Copy

One-Click Copy from Template

- [ ] Click “Copy Headline” button
- [ ] Click “Copy Description” button
- [ ] Click “Copy Ad Copy” button
- [ ] Copy targeting recommendations (location, demographics, keywords)
- [ ] Copy budget suggestions for this campaign type

Pro Tip: Keep ad copy in a text file for easy reference and future edits

---

Step 3: Open Platform

Direct Links from Marketing Dashboard

- [ ] Click the appropriate "Open" button:
  - **Google Business** → Posts and updates
  - **Google Ads** → Search, Display, YouTube campaigns
  - **Facebook/Instagram** → Meta Business Suite
- [ ] Log in to your business account
- [ ] Navigate to campaign creation page

Step 4: Paste & Customize

Adapt Template to Your Campaign

- [ ] Paste headline into campaign builder
- [ ] Paste description text
- [ ] Paste full ad copy
- [ ] **Customize with specifics:**
  - Add current promotions ("First Month FREE")
  - Update seasonal messaging (winter/summer)
  - Include specific rebate amounts if applicable
  - Add urgency if time-sensitive
- [ ] Add images/graphics (use high-quality HVAC photos)
- [ ] Set targeting:
  - **Location:** 33-mile radius from Newark, NJ
  - **Demographics:** Homeowners 35-65, property managers
  - **Keywords:** Use recommended keywords from template

Step 5: Set Budget

Based on $8K-15K Monthly Marketing Strategy

Recommended Budget Allocation:

- **Google Ads (Search):** 40-45% of total budget
  - Emergency campaigns: $50-100/day
  - Installation campaigns: $30-60/day
- **Facebook/Instagram:** 25-30% of total budget
  - Awareness campaigns: $20-40/day
  - Lead gen campaigns: $30-50/day
- **YouTube:** 15% of total budget
  - Educational videos: $15-30/day
- **Google Display:** 10% of total budget
  - Retargeting: $10-20/day

Campaign-Specific Budgets:

- [ ] **Emergency Repair:** Start with $50-75/day (high-intent, immediate ROI)
- [ ] **Heat Pump/Rebates:** Start with $40-60/day (education + conversion)
- [ ] **Maintenance Subscriptions:** Start with $30-50/day (recurring value)
- [ ] **Partnership Recruitment:** Start with $20-30/day (niche audience)

Pro Tip: Start conservative, scale up winners after 7-14 days of data

---

Step 6: Launch Campaign

Final Checks Before Going Live

- [ ] Review all ad copy for typos
- [ ] Verify phone number: **(862) 423-9396**
- [ ] Confirm website URL: **mechanicalenterprise.manus.space**

- [ ] Check landing page matches ad promise
- [ ] Set campaign start/end dates (if applicable)
- [ ] Enable conversion tracking
- [ ] Set up automated rules (optional):
  - Pause if cost per lead exceeds $150
  - Increase budget if conversion rate > 10%
- [ ] **Click "Publish" or "Launch Campaign"**

Step 7: Log in Lead Tracker

Track Performance from Day One

- [ ] Go to: **mechanicalenterprise.manus.space/leads**
- [ ] When leads come in, log immediately:
  - Name and contact info
  - **Lead Source:** Select exact campaign (e.g., "Google Ads - Emergency Repair")
  - Service interested in
  - Status (New → Contacted → Quoted → Won/Lost)
  - Notes about the call/inquiry
- [ ] Update lead status as you progress through sales process
- [ ] Export CSV weekly to analyze which campaigns perform best

---

Post-Launch Monitoring

First 48 Hours

- [ ] Check campaign is running (not paused/rejected)
- [ ] Monitor impressions and clicks
- [ ] Verify ads are showing in target area

- [ ] Test clicking your own ad to check landing page
- [ ] Respond to any leads within 1 hour

First Week

- [ ] Review daily spend vs. budget
- [ ] Track cost per click (CPC)
- [ ] Monitor lead volume
- [ ] Calculate cost per lead (CPL)
- [ ] Pause underperforming ads
- [ ] Scale budget on high-performers

Ongoing (Weekly)

- [ ] Review lead tracker data
- [ ] Calculate conversion rate (leads → customers)
- [ ] Compare ROI vs. HomeBuddy costs
- [ ] Adjust targeting based on lead quality
- [ ] Refresh ad copy if performance drops
- [ ] Test new variations (A/B testing)

Success Metrics

What "Good" Looks Like

Google Ads (Search):

- **CTR:** 5-12%
- **Cost Per Click:** $3-8
- **Cost Per Lead:** $30-100
- **Conversion Rate:** 8-15%

Facebook/Instagram:

- **CTR:** 1-3%
- **Cost Per Click:** $1-3
- **Cost Per Lead:** $40-120
- **Conversion Rate:** 5-12%

Overall Campaign:

- **Lead Quality:** 70%+ qualified (actually need HVAC service)
- **Response Time:** hour for emergency, hours for others
- **Close Rate:** 20-40% of qualified leads
- **ROI:** 3:1 minimum (every $1 spent generates $3 revenue)

Troubleshooting

Low Impressions?

- Increase budget
- Expand targeting radius
- Add more keywords

High CPC, Low Conversions?

- Refine targeting (exclude irrelevant audiences)
- Improve ad relevance score
- Test different ad copy

Leads But Poor Quality?

- Tighten targeting (exclude renters, young demographics)
- Clarify service offering in ad copy
- Add qualification questions to landing page

No Leads at All?

- Check landing page is working
- Verify phone number is correct
- Test form submission yourself
- Review ad copy clarity
